

4th in the Park 2021 - COVID Safety Plan

In accordance with the most recent federal, state, and local guidelines regarding COVID-19 safety, anyone who attends the event and is not fully vaccinated is strongly recommended to wear a mask (including children above the age of 2).

As recommended best practices around COVID safety continue to evolve, we will keep you updated on any changes to our safety plan as the event draws closer. You can find the most recent guidelines at mn.gov and stpaul.gov.

We know the past year and a half hasn't been easy, and that people are navigating safety rules around COVID with varying comfort levels. We anticipate that attending the event this year won't be possible for some people, and we understand and support whatever decision you make. To make the event accessible for those who cannot attend in person, the parade and bandstand program will be livestreamed on our 4th of July Facebook page beginning at 11:00 am.
